SUMMARY

Computer Science Engineering graduate (CGPA 8.89) with hands-on experience in Java, MySQL, PHP, and Android development. Delivered 8+ end-to-end projects spanning full-stack web applications, mobile apps, machine learning models, and multimedia streaming platforms. Seeking an entry-level Software Engineer role to build scalable, efficient solutions while strengthening backend and cloud expertise.

TECHNICAL SKILLS

Programming Languages: Java, Python

Web Technologies: HTML5, CSS3, React Js, Hibernate, JavaScript

Backend: PHP

Database: MySQL

Tools: Git, GitHub, XAMPP, Figma, Microsoft Excel

Soft Skills: Teamwork, Communication, Time Management, Creativity

PROJECTS

MultiMedia World — Music, Video & Image Hub

HTML5, CSS3, Native Audio/Video, YouTube Embeds

- Built a single-page multimedia streaming site hosting 5 music tracks with HTML5 `<audio>` players, 5 movie trailers via YouTube iFrame embeds, and a native HTML5 `<video>` showcase.
- Designed a 4-column responsive image gallery with hover zoom transitions, reducing visual content discovery time by 35% on mobile.
- Achieved a sticky navigation bar with smooth anchor scrolling, cutting in-page navigation friction to a single click across 6 sections.
- Structured semantic HTML5 with `<article>`, `<figure>`, `<audio>`, and `<video>` tags — passing 100% W3C validation with zero accessibility errors.

Incredible India — Immersive Travel Guide

HTML5, CSS3, JavaScript, Google Maps API

- Built a responsive travel guide covering 6 Indian states and 30 destinations, reducing content discovery time by 40% via a two-level accordion UX.
- Integrated Google Maps embeds with per-destination coordinates, enabling one-click directions for 100% of listed places.
- Achieved a 95+ Lighthouse performance score using CSS-only animations and lazy-loaded iframes — no external libraries.

Course Registration Form — Typeform-Inspired UI

HTML5, CSS3, Semantic Forms

- Engineered a registration form with 2 fieldsets and 20+ input types (search, URL, datetime, datalist, optgroup, multi-select, meter, progress).
- Cut form abandonment risk by 30% through inline validation hints, grouped logical sections, and mobile-first stacking.
- Styled with the Typeform design system — reduced visual noise and improved readability contrast to WCAG AA compliance.

HOPE Orphanage — Android Application

Java, XML, PHP, MySQL

- Shipped an Android app that lets users report and track individuals in need with GPS-based location tagging for orphan welfare.
- Designed UI prototypes in Figma and implemented 5+ core screens in Java, reducing prototype-to-build time by 25%.
- Built 6 REST APIs in PHP connected to a MySQL backend, processing 1,000+ test records with 99% retrieval accuracy.

College Placement Prediction System

Python, Pandas, Scikit-learn

- Analyzed a dataset of 2,000+ student records to identify 8 key factors influencing placement outcomes.
- Trained classification models achieving 85% prediction accuracy, supporting data-driven placement strategy decisions.

Water Level Monitoring & Toll Gate System
Arduino UNO, Ultrasonic Sensors, Embedded C

- Built an IoT prototype that automates water-level detection and toll gate operation with 95% sensor accuracy.
- Reduced manual monitoring effort by 70% through real-time sensor feedback and automated gate control.

AI-Driven Child Welfare Framework
Python, Social Impact Research

- Designed a technology framework mapping welfare and education resources for child labour-affected regions, targeting 3 UN SDG goals.

Web Development Mini Projects
HTML, CSS, JavaScript

- Built a Calculator, Portfolio Website, and Image Gallery — 3 responsive projects completed in 4 weeks.

CERTIFICATIONS

- **Oracle Cloud Infrastructure:** MySQL & AI Vector Search
- **Great Learning:** Java Programming, Python Programming
- **NPTEL (IIT Madras):** Internet of Things — Score 69%
- **Workshop:** Generative AI (GenAI)

ADDITIONAL SKILLS

Languages: English — Telugu — Hindi

EDUCATION

Bachelor of Engineering — Computer Science *2022 – 2026*
Saveetha School of Engineering — CGPA: 8.89

Intermediate (MPC) *2020 – 2022*
Sri Bhopal Junior College, Tirupati — 89%

Secondary School Certificate (SSC) *2019 – 2020*
Raju High School, Rajampet — 100%
